ABOUT ME

Aspiring Software Developer with a strong academic foundation in computer applications and programming. Passionate about building real-world projects, learning new technologies, and solving complex problems. Motivated, adaptable, and eager to contribute to innovative tech teams while gaining hands-on experience in full-stack development.

SKILLS

- Languages: JavaScript, Java
- Frontend: HTML5, CSS3, React.js, React Native
- Backend: Node.js, Express.js
- Databases: MongoDB, SQL
- Core CS: Data Structures & Algorithms, OOPs, DBMS
- Tools: Git, GitHub, REST APIs, Android Studio
- Concepts: MVC Architecture, API Integration, Responsive Design

EXPERIENCE

Full Stack Developer Intern | Apr 2026 – Present

- Developed and maintained MERN stack applications with scalable architecture
- Designed and implemented RESTful APIs for frontend-backend integration
- Optimized performance and managed database operations

React Native Intern | Jan 2026 – Mar 2026

- Built cross-platform mobile applications using React Native
- Developed reusable components and implemented navigation flows
- Integrated backend APIs and improved app performance

React Native Intern | Jul 2025 – Aug 2025

- Created responsive UI components using React Native
- Improved application usability and learned component-based architecture

Android Developer Intern | Jun 2023 – Jul 2023

- Developed Android application features using Java and XML
- Worked on UI design and gained experience with app lifecycle and debugging

EDUCATION

Masters of Computer Applications | 2024-26

GNA University - Phagwara
CGPA - 9.67 (till 1st year)

Bachelors of Computer Applications | 2021-24

GNA University - Phagwara
CGPA - 8.54

ACHIEVEMENTS / CERTIFICATIONS

- Secured 2nd Position in Blind Coding Competition held in the university.
- Java Programming Fundamentals – Sanfoundry
- Full Stack Development course – Simplilearn

PROJECTS

• Portfolio Website - React.js [Link](#)

Created and deployed a personal website to showcase projects, skills, and contact information using React.js , HTML, CSS and JavaScript.

• MediAid - Full stack (MERN)

A healthcare web platform that connects patients with doctors, allowing users to book appointments, view doctor profiles, and manage medical schedules through an intuitive interface built with the MERN stack with MVC architecture.

• CoffeeSpot App - ReactNative

CoffeeSpot is a modern mobile app for browsing and ordering coffee and beans with a sleek dark-themed UI. It offers product details, size-based pricing, and seamless cart and checkout functionality.
